The fiscal year of 2022

ANNUAL REPORT 2022

APR2022-MAR2023

Message from the Chairman of the Board

With the power of youth, we will create an environment for growth !

What is needed for today's children?

What can we do for the youth who will create the future world?

In the fiscal year of 2022, as the REALE WORLD we reconsidered ourselves and activities and engaged to create an environment for learning to go out into the newly formed world.

Since its small individual start in 2004, we have been continuing our activities as a NPO organization.

It became the year of harvest for our attempt and effort. We could see the new scenery shown by FC REALE graduates.

For the growth of young children, I re-recognized, it is crucial to encounter adults who can guide them earnestly.

Social media and remote work is now widespread in the world, but we will stick to the original commitment, "to face in sincerity" and engage passionately "to create a place and environment for growth" with our graduates and youngsters.

The power of each of us might be very small, but we will sincerely work on to feel the great power emerging when small individual get together and to get the confidence and conviction that we have the power to produce changes.

Bearing in mind the importance of continuation, we will improve ourselves and work on our purpose, "nurturing strength to live" with all of you.

Focus on "Run" Develop Motor Nerve !

REALE WORLD started Sports class with the theme "Running" for pre-school children and lower grade students, aiming at improving athletic ability comprehensively. Under the lead of coach Kizaki, track team of Nippon Sports Science University, total 200 kids participated.

Message from Hato coach

Hayato KIZAKI
(called Hato)

Graduated from Nippon Sports Science University (Track team)
Instructor of Hato's Running Class
FC REALE Japan coach

Compared with back then, children have less opportunity for playing outside. It is a very important state for the base development of physical ability for kids of pre-school and lower grade. Various physical exercises during that age will stimulate developing motor nerves. In Hato's class, kids can have fun, learning the style of running, experiencing extraordinary movement, which also promote brain development such as ability to think, memorial power and creative power. And also I wish to teach precious things to interpersonal relationships.

Deploy Instructor From REALE WORLD Physical Training To Nepali School Education!

REALE WORLD deploys physical instructors to schools. In Nepal, normally no physical training class is in the curriculum, and we try to enlighten teachers that it is significantly important for children's healthy upbringing to take exercise or physical activities into the field of education. We cooperated with 2 schools in Madhyapurthimi, trying to expand this project with more partnerships in 2023.

Message from Manager Bal Gopal

**Bal Gopal
SHAHUKHALA**

Nepal Pro-League Coach
FC REALE Nepal Head Coach

Decreased physical strength of children living in urban areas is becoming a matter of concern in recent years. REALE WORLD has been appealing to the public the importance of exercise for young children in growth period. And now there comes another issue that there is no experienced instructors. To solve it, we deploy FC REALE coaches as instructors providing physical training class and received positive reaction. Physical training is not only strengthen body but create well balanced growth. We will spread this useful activities in all over Nepal.

WORLD FRIENDS PROJECT

143 Uniform & Gear

World Friends Project is “Supporting the life of young children in overseas through football shoes.”

Contributed items are sent us from all over Japan. Pandemic interrupted our activities and in return we could deliver contributed items to children in Nepal, Kenya and Ethiopia in 2022.

NEPAL

Delivered to Nepal in 2022

123 Football shoes
28 Uniform **82** Balls

In Nepal we could deliver donated shoes and wears to children living in villages and isolated district and received many thank you letter. Here is the one from a boy, Safal.

Safal's Story

Safal Jayana Shrestha, 14 yrs belonging to FC REALE U-15. Playing football since U-8. Marking a good attendance and he is training hard every day toward his dream to become a professional football player.

"I love football but can't afford expensive shoes and wear. So I was so happy when REALE gave me shoes in such a high quality even used ones.

And I was so thankful from the bottom of my heart to know that it was donated from a Japanese kid and at the same time I promised myself to become good at football as much as he is. I am the smallest in the team but no one surpasses me in speediness. I will practice more and more and become a professional."

Safal cherished his shoes so much and when growing out of his shoes, he gave it to his younger mate. A pair of shoes was a HOPE that drove him and passed on to the mate.

"Thank you so much for giving me shoes! I will practice a lot and play football with Japanese players."

Contributed items were delivered to:

- FC REALE Nepal (Madhyapurthimi)
- Shree Thangpal Valley Secondary School (Sindhupalchowk district)
- Dona football academy (Lumbini province)

KENYA

Delivered
to Kenya in
2022

356 Football shoes
16 Uniform

In JAN2022, 13 boxes filled with contributed items were sent to Kenya by air supported by crowdfunding. However, several months had passed because the amount of customs duties imposed on boxes was too absurd for the local organization to withdraw. Then REALE WORLD staff visited Kenya in MAY with the aim of passing customs. Thanks to Mr. HIROTANI, the Chairman of FOUNDATION FOR THE SUPPORT OF THE UNITED NATIONS, INC. Mr. Douglas WAKIIHURI (Gold medalist for the Marathon World Cup, Silver medalist for Olympics) introduced by Mr. HIROTANI gave us great support and finally we could receive 13 boxes out of customs. Trouble is always a part of shipping but we successfully handed those contributed items to various organizations. Thank you all for your kind cooperation.

Contributed items were delivered to:

- RUMA Foundation (U-18)
- Kawangware Academy (U-19)
- Kawangware Community Club (U-15)
- Nyakemincha Secondary School (U-16)
- Siamani FC (U-19)
- Mobamba FC (U-19)
- Nation FC (U-25)
- GO GO BOYS (U-17)

ETHIOPIA

Delivered to
Ethiopia in
2022

70 Football shoes
382 Uniform 20 Balls

WORLD FRIENDS Project was carried out in Ethiopia under such a circumstances of movement restrictions for public peace. Two of the Japanese young men positively working for international exchange and international cooperation activity joined us in Ethiopia. Shuhei WATANABE, the Chairman of the General Incorporated Association TTE, supporting displaced people from Ukraine and Taiyo YASUTOMI, a student of Ritsumeikan Asia Pacific University.

From the View of Taiyo YASUTOMI

It was full of trouble. The first difficulty happened at the entry to Ethiopia. Our suits cases packed with contributed items were forced to stay at the customs at the airport. The second shock was street children, saying us "Give me money," even during the school time. The third one was local food not suiting my tastes. Under such circumstances we visited 2 local schools to hand football shoes and balls.

I could also have chance for direct communication with kids, dance together, learn their music, and their smiles vitalize me a lot. At the same time, found many regrettable matter to review: We didn't have enough contributed shoes to hand all students of the school, causing unfair situations. Teachers requested us for continuous contribution but it is not possible due to financial consideration. I can never find the fact without seeing with my own eyes.

Contributed items were delivered to:

- KEY KOKEB PRIMARY SCHOOL
- ENTOTO AMBA GENERAL SECONDARY SCHOOL
- Shiro Meda Football Project

Kaida Highlands Agricultural Experience Programme

Started in 2022 as "Self-discovery × Solving Regional Problems Project." Offering university students a great opportunity for self-discovery in nature, to extend knowledge about agriculture, environment and regional problems through agricultural experience in Kaida Highlands, the land of mystery in Nagano.

We believe it will lead to self-growth and future actions.

REALE WORLD will proceed with the project, giving young power to the mountainous regions and offering youngsters a chance of experiences.

REALE GROUND PROJECT

Myoshi, the REALE WORLD Chairman of the Board, Santosh and Tada, two chairmen, visited Mr. Ono, the mayor of Ito city in JUN. We told him our dream to create a ground as a place where children and local people, can enjoy exercise without any charge at all time, strengthen exchanges regardless of generations and also as a place for all regional people can nurture children. And he sympathized us. The final state of the ground will be the "community stadium for people of all around the world" but for now we will complete a ground for children to run around.

Also we value the time to spend together to cut the grass with REALE chairmen, supporters, local people and FC REALE parents.

The wisdom is passed down from generation to generation through outdoor activities.

CULTURE & ART PROJECT

REALE WORLD hosted the orchestra concert "JRPG Collection Symphony" performed by Video Game Harmonic Tokyo at Tokyo Opera City Concert Hall in May.

We are challenging to nurture future leaders of various fields and it was our first experience in music field, becoming a valuable time for children to have a genuine experience.
